Dear Faye and Quentin,

I want to thank both of you as well as the rest of the Senate Executive Committee for your very clear letter regarding the LRDP process as it relates to the Senate resolution.

I am very pleased that the SEC is able to endorse the transmission of the LRDP to the Regents for the September meeting. I do understand the nature of the caveats in the remainder of your letter, and I want to assure you that the administration will work diligently and cooperatively to provide additional information to clarify and confirm the results of the EIR and that this cooperation will occur both before and after the relevant Regents meeting. I do appreciate the very hard work that both of you as well as several other senate members put in over the summer on this. Shared governance at UCSC is most certainly stronger as a result.

I will enjoy working with Senate in the coming months on a range of issues of mutual concern. Once the envelope of the LRDP is approved, I look forward to our discussions regarding the rate of growth of the campus. It will be an interesting year.

Best regards,
George
