

Resolution on a Safe and Secure Educational Environment

The following Resolution was passed by a show of hands.

Whereas the Santa Cruz Academic Senate -- teachers, scholars, instructors, and researchers -- are committed to ensuring a safe environment where research, teaching, and service may thrive,

and whereas recent and reoccurring mass shootings on educational campuses threaten our mission and very existence, we join in solidarity with the survivors of the Parkland Florida school shooting on February 14, 2018 in calling for comprehensive and effective legislation to address gun issues so that no student need attend school in fear.

Be it resolved, that the Santa Cruz Academic Senate request that our Governor and State officials work with all other elected officials to ensure a safe and secure educational environment for all.

Respectfully submitted;
Barry Bowman, Committee on Emeriti Relations Chair
