Research Development at UCSC

UCSC Research Development Team
June 12th, 2018

Julia Gaudinski – Environmental Sciences
Karen Ruhleder – Engineering
David States– Biomedical
What is Research Development?

Catalyzing the UCSC Research Enterprise

- Research Opportunity Management
- Proposal Development Services
- Faculty Training & Consultations
What is Research Development?

We can support you in:

- Building relationships with federal funding agencies
- Strategizing and planning proposals over your career
- Identifying funding opportunities
- Planning, structuring, and preparing grant proposals

Interface with Corporate and Foundation Relations for non-government opportunities
What is Research Development?

We can support you in:

- Building relationships with federal funding agencies
- Strategizing and planning proposals over your career
- Identifying funding opportunities
- Planning, structuring, and preparing grant proposals

Interface with Corporate and Foundation Relations for non-government opportunities
We can help with:

- Establishing timelines
- All aspects of grantwriting
  - Preparing an initial outline
  - Feedback on content and structure
  - Meeting RFP requirements and review criteria
  - Articulating a vision commensurate with program goals
- Facilitate peer review
- Facilitate graphics help

The more time you give us the more we can do
