Policy on C- as a Passing Grade for Courses From Other Institutions

Under Santa Cruz Divisional Regulation SCR 10.2.3.1, only course work awarded the grade of P, C (2.0) or better may be used to satisfy campus general education requirements. CEP interprets this requirement to mean that a student's work in the course must be of passing quality, whether they choose the P/NP or letter grade option. In the case of a course from an academic institution where a C- is a passing grade, course work awarded the grade of P, C- or better is sufficient to satisfy UCSC general education requirements.

This policy does not apply to major requirements, whether or not they are part of the transfer screening requirements for that major, for which a C- grade is inadequate. The policy is limited to institutions where a C- is a passing grade.

Approved by the Committee on Educational Policy on September 25, 2019.
