Re: Edward A. Dickson Emeriti Professorship Award for 2010-11

Dear Alison:

Thank you for the opportunity to select an Edward A. Dickson Emeriti Professor for 2010-11. Following a call to all PSci department chairs, I received one nomination and am pleased to make the award to George Brown, Professor Emeritus in the Physics Department.

Professor Brown has achieved an impressive record of scholarship, teaching, and service throughout his career. Most recently, he has been recalled from retirement to update and refine the lower division labs for Physics and organize the TAs, improving instruction and providing a more consistent experience for students. Professor Brown continues to teach lab courses for Physics where his commitment to undergraduate education and to UCSC are highly valued by the department and beneficial for the students.

Following is the information you requested for this award:

- Name: George Brown
- Courses: PHYS 5 (Introduction to Physics) and PHYS 6 (Introductory Physics)
- Quarter: Fall 2010
- Funding: Professor Brown will receive \$15,000 towards his teaching of multiple labs, a portion of which will cover his benefits.

Please contact Kathie Kenyon at x9-2614 (kmk@ucsc.edu) if you need additional information.

Sincerely,

Stephen E. Thorsett
Dean
