Committee on Teaching (COT) Presents:

A Panel Discussion on Innovations in Teaching with Technology

Wednesday, January 13, 2016
Stevenson Event Center from 3-5pm

Join us for a panel presentation on Innovations in Teaching with Technology at UCSC. Nandini Bhattacharya (Mathematics) and Jenny Lynn (Classical Studies) will discuss their recent experience integrating technology into their courses. Leslie Kern (FITC Operations Manager) & Aaron Zachmeier (Academic Affairs Instructional Designer) will discuss how the instructional design process can be facilitated, highlighting new advancements in available technologies (e.g., Learning Glass and the Media Editing studio) and how and why to access Lynda.com as a professional development resource.

We hope you can attend to see how your colleagues are using technology in their classrooms and to discover campus resources available to hone your teaching!

Light refreshments will be served

Sponsored by the Academic Senate Office
